DESIGNED FOR YOU

perfect for modern living

Vertical blinds are designed to offer complete shading and privacy flexibility. Choose from a stunning range of fabrics designed to suit every room, colour scheme and shading requirement in your home, whether it be a light filtering, dimout or blackout fabric.

Our made to measure vertical blinds can be drawn neatly to the side allowing unlimited views, or the louvres can be rotated to allow just the right amount of light into the room to maintain an element of privacy.

Available as either 89mm or 127mm louvre widths, our stylish vertical blind fabrics also feature special finishes which allow them to be easily maintained to keep them looking great for many years to come.

This highly practical window shade has no restriction on size, so they make an ideal choice for large windows, patios or bi-fold doors.

All our vertical blinds are designed to be child safe and we would recommend motorised or wand operation for convenience and safety.

IT'S THE little things

Louvolite's Vertical shade enhancements have transformed the way we look at Vertical window blinds.

Slimline Vogue® offers a superior headrail system that will instantly modernise your blind with its sleek and contemporary appearance transforming your room with a modern look and feel.

Available in a range of six contemporary colours, Slimline Vogue® is our UK designed and manufactured operating system that can co-ordinate or contrast with your fabric.

You also have the option of sewn in weights or new gravity weights at the bottom of the louvre, removing the need for chain and finishing off your blind perfectly.

MOTORISE your vertical blinds

Vertical blinds are now available with motorisation for the utmost in convenience. Use your remote control to rotate the louvres 45° or 90° clockwise anticlockwise until fully closed. Wand control can be used if you need to fully open the blinds.

Your remote control will operate up to 5 blinds at the same time to suit your requirements.

Motorised Vertical blinds are an innovative solution for the home, offering complete shading flexibility and privacy at the touch of a button.

pollergen

*Helping to reduce
hayfever symptoms
with*

**pollergen™**

Louvolve has created a unique fabric treatment which will help relieve hayfever symptoms, it's called Pollergen™.

Pollen, by its very nature is tacky and will stick to any surface it comes into contact with. Pollergen™ enhances this capture rate by the inclusion of a unique tackifier within the formula.

All Pollergen™ treated fabrics can be washed or wiped down as the active formulation continuously migrates to the surface of the fabric for continued protection.

So when selecting your new blinds, make Pollergen™ your fabric choice.
